

**MEDIA RELEASE  
FOR IMMEDIATE RELEASE  
TUESDAY, OCTOBER 13, 2020**

**WINDSORESSEX ECONOMIC DEVELOPMENT CORPORATION  
NAMED OFFICIAL VIRTUAL REALITY PARTNER OF APMA'S  
PROJECT ARROW**

**Windsor-Essex County, Ontario, Canada – Tuesday, October 13, 2020 -**  
The WindsorEssex Economic Development Corporation (WE EDC) and the [Automotive Parts Manufacturers' Association of Canada \(APMA\)](#) have entered into an agreement to unveil the [Project Arrow](#) Concept Car in digital form using Canada's largest, publicly accessible, virtual reality CAVE, located at WE EDC's [Institute for Border Logistics and Security](#). The Windsor-Essex RTDS VR CAVE is a feature of the Province of Ontario's [AVIN network](#). The unveiling is expected to be scheduled for the first quarter in 2021.

Project Arrow, an initiative from APMA, is the first, original, full-build zero-emission concept vehicle in Canada. It will be designed, engineered and built by Canada's world-class automotive supply sector and post-secondary institutions. This project will bring together the best of the best of Canada's electric-drive, alternative-fuel, connected and autonomous and light-weight technology companies.

Bringing the Project Arrow concept vehicle to life will support:

- Increased electric vehicle development capacity.

- Support future-thinking industry-focused R&D led by academic institutions.
- Ensure that the supporting EV supply chain is present and growing.
- Paves the way for new OEM North American final EV assembly mandates in Canada.

Key components and technologies that support the opportunity for the growth of zero-emission, EV manufacturing:

- New forms of propulsion
- Battery management systems and chemistry and performance
- Fuel cell efficiency and supporting infrastructure
- High performance on-board charging
- Light-weighting
- Advanced materials
- Level three plus (3+) autonomy
- Advanced cockpit design
- Exterior structure

**President of APMA, Flavio Volpe** predicts roughly one-third of the Arrow's parts could be sourced from Windsor. "Windsor is the beating heart of the Canadian auto sector, I can think of no other better place to take the first pulse of the Arrow." said Volpe.

"The ability to visualize designs in a high-fidelity, full-scale, virtual environment allows the designers, engineers, systems analysts and technical staff to collaboratively make real-time changes to these vehicles. The VR CAVE is a tremendous asset for our community and partnerships like this put a flag in the ground that Windsor Essex is the Automobility Hub in Canada" said **Stephen MacKenzie, President and CEO, WindsorEssex Economic Development Corporation.**

## **ABOUT WINDSORESSEX ECONOMIC DEVELOPMENT**

The WindsorEssex Economic Development Corporation is the lead economic

development agency for the Windsor-Essex region. The focus of the organization is to develop and execute strategies to retain, expand, attract and help new businesses start-up in the Windsor-Essex region.
